

## CT Spot

### Coffee & Tannin Spot Remover

---

CT Spot is a high activity formula for neutralising and removing coffee and tannin stains. This professionally researched formula includes a special blend of low pH compounds proven to remove tough tannin staining, coffee marks, cellulosic browning discolourations, water marks, and many dye and beverage stains.

#### **BENEFITS**

- **Innovative Chemistry** – CT Spot is a precise blend of metabisulphite and specialist low pH compounds known to be highly effective on tannin and dye removal.
- **Dynamic Penetration Feature** – The inclusion of wetting agents and emulsifiers ensure that CT Spot quickly and effectively penetrates each discoloured fibre and neutralizes the staining.
- **Cellulosic Browning** – CT Spot's carefully selected blend of low pH salts neutralize stains caused by alkaline browning and flood damage on woollen fibres.
- **Fibre Safe** – CT Spot is safe for use on all natural and synthetic fibres, however fine fabrics must be pre-tested for colour stability before use.

#### **DIRECTIONS for USE**

Always pre-test in an inconspicuous location for substrate sensitivity to chemicals.

#### **Application:**

1. Use CT Spot undiluted for severe contamination or dilute 1:1 for lesser effected areas and for use on upholstery
2. Spray apply this solution onto the fibre or fabric until it is wetted out.
3. Agitate solution using a carpet rake or upholstery cleaning brush.
4. Allow 10 – 20 minutes reaction time.
5. Rinse extract using Settler or a Whytes Emulsifier.
6. Allow to dry. Assist drying by increasing ventilation.
