

## Conquest

### Multi-task Encapsulating Spot Remover

---

The unbeatable multi-task spotting solution effective on a wide range of water based and oily stains, with the added benefit of anti-resoiling encapsulation technology. The Conquest formulation provides serious stain removal properties for a wide scope of stain types but has a unique focus on fibre care and anti-resoiling functionality.

Thanks to the latest in polymer and surfactant technology, Conquest lives up to it's name every time.

Conquest is an ideal on-sell item, available in an attractive 750ml consumer pack. The homeowner will love it and both you and him have the peace-of-mind using a spot remover which has all the boxes ticked.

#### BENEFITS

- **Stain Removal** – Lifts stubborn stains caused by foods, drinks, cosmetics, oils, organics, beverages, pets and some inks.
- **Will not set stains.**
- **Versatile** – Because Conquest is so fibre friendly and dries to a brittle residue, it makes an ideal product to clean soil from garments, drapes and soft furnishings or partitions.
- **Wool Friendly** – Exceeds the specification for the safe cleaning of wool carpets.
- **Slows resoiling** – Advanced polymer prevents rapid resoiling.
- **Non-rinsing** – Soil residues dry to a brittle residue for vacuuming away.

#### DIRECTIONS for USE

Always pretest in an inconspicuous location for fibre and dye sensitivity.

1. Ready to use – no dilution needed.
2. Sponge or scrape up any surface spot material.
3. Spray or blot solution onto the spot. Do not overwet. Agitate gently.
4. Allow 5 minutes dwell time for stubborn stains.
5. Blot away with a clean white towel. Do not rub. Stubborn spots may need light agitation. Work from the outside to the centre of large spots
6. Repeat as necessary.

Attend to spots and spills as soon as possible. Fresh spots are significantly easier to remove. If left they can become permanent stains.
